

This PDF document is an updated note on the company. A comprehensive version of the report on the company, including this latest update, is available on [our website](#) and various professional platforms.

On January 20, 2021, Canon Marketing Japan Inc. (CMJ) announced revisions to its full-year forecast for FY12/20.

#### Revised consolidated full-year forecast for FY12/20

Sales:	JPY545.0bn (previous forecast of JPY537.0bn)
Operating profit:	JPY31.3bn (JPY24.0bn)
Recurring profit:	JPY35.2bn (JPY27.7bn)
Net income*:	JPY21.9bn (JPY16.8bn)
EPS:	JPY168.89 (JPY129.56)

\*Net income attributable to owners of the parent

#### Reasons for revisions

The company revised its initial FY12/20 forecast upward on October 23, 2020 because recovery began earlier than expected in Q3 after relevant markets had contracted due to the spread of COVID-19. The second round of revisions announced on January 20, 2021 was made because profit exceeded the company's projections due in part to performance from new full-size mirrorless cameras that drove results in the camera business in Q4 and favorable numbers from inkjet printers, which continued to be in high demand for their utility in terms of teleworking.
