On April 15, 2021, AirTrip Corp. announced a revision to its FY09/21 earnings forecast.

### Revised FY09/21 earnings forecast

▷ Operating revenue:	JPY24.3bn (unchanged from previous forecast)
▷ Operating profit:	JPY1.3bn (previously JPY1.0bn)
▷ Pre-tax profit:	JPY1.2bn (JPY940mn)
▷ Profit*:	JPY741mn (JPY561mn)
▷ EPS:	JPY35.74 (JPY27.09)

\*Profit attributable to owners of the parent

### Reasons for the revision

The company revised up its full-year FY09/21 earnings forecast as it expects each profit item to improve. The operating revenue forecast remains unchanged. This reflects the fact that recovery in the overseas travel business remains sluggish, and ongoing uncertainty over the outlook for domestic travel demand for long holidays from late April to early May as well as the busy summer season.

- ▷ Following the previous forecast revision, all businesses in the Airtrip Travel Agency segment (excluding overseas travel) have continued to perform well, exceeding initial expectations. Although there are some effects from tighter COVID-19 measures, performance in the domestic travel business is on a recovery trend, exceeding its expectations. The company has also seen a better-than-expected recovery in other businesses. In some cases it has benefited from new demand either during the pandemic or else related to the post-pandemic environment. Therefore, overall performance has been positive.
